

Lighting the Menorah on Shabbat

Lighting candles on Shabbat can get tricky because lighting candles is not allowed on Shabbat.

Therefore, on Friday afternoon, light the menorah before the Shabbat candles. For the duration of Shabbat, do not relight any flames that have gone out or move the menorah, nor should you prepare the Saturday night Hanukkah lights during the day.

On Saturday night, light the menorah after Shabbat ends at nightfall. Traditionally, the menorah is kindled immediately after the *havdalah* service.
